**WAVEFRONT TECHNOLOGY SOLUTIONS INC.**

**STRONG POWERWAVE RESULTS PROMPT EXPANDED USE  
SOUTHERN ALBERTA CLIENT EXPANDS POWERWAVE TO EASTERN ALBERTA ASSET**

EDMONTON, Alta Mar 11, 2010 – Wavefront Technology Solutions Inc. (“Wavefront”), a world leader in providing innovative solutions for increasing oil field production and enhancing the treatment of contaminated groundwater, is pleased to announce that its southern Alberta client is expanding the use of Powerwave to an eastern Alberta oil asset.

This asset is in the same area of Wavefront’s longest running Powerwave program which has also recently expanded with its success in increasing oil production. Wavefront also anticipates the client will soon broaden Powerwave use in its southern Alberta asset. For competitive reasons, the client and field locations cannot be named.

“Nothing breeds success like success,” said Wavefront President and CEO Brett Davidson. “Powerwave continues to help clients significantly increase oil production, and many of them now want to further leverage the technology to achieve even greater benefit. Expansion to a second asset is evidence of the Albertan producer recognizing Powerwave’s strengths in increasing production rates as well as improving ultimate oil recovery, and it is indicative of interest we have received internationally as well.”

***About Wavefront Technology Solutions Inc.***

Wavefront specializes in designing and developing leading-edge techniques for oil well stimulation, improved oil recovery, and environmental groundwater remediation.

Cautionary Disclaimer – Forward Looking Statements

Certain statements contained herein regarding Wavefront and its operations constitute “forward-looking statements” within the meaning of Canadian securities laws and the United States Private Securities Litigation Reform Act of 1995. All statements that are not historical facts, including without limitation statements regarding future estimates, plans, objectives, assumptions or expectations or future performance, are “forward-looking statements”. In some cases, forward-looking statements can be identified by terminology such as “may”, “will”, “should”, “expect”, “plan”, “anticipate”, “believe”, “estimate”, “predict”, “potential”, “continue” or the negative of these terms or other comparable terminology. We caution that such “forward-looking statements” involve known and unknown risks and uncertainties that could cause actual results and future events to differ materially from those anticipated in such statements. Such factors include fluctuations in the acceptance rates of Wavefront’s Powerwave and Primawave Processes, demand for products and services, fluctuations in the market for oil and gas related products and services, the ability of Wavefront to attract and maintain key personnel, technology changes, global political and economic conditions, and other factors that were described in further detail in Wavefront’s continuous disclosure filings, available on SEDAR at www.sedar.com. Wavefront expressly disclaims any obligation to up-date any “forward-looking statements”, other than as required by law.
