

**CANADIAN-BASED OIL AND GAS PRODUCER SEEKS BENEFITS OF POWERWAVE
EIGHT POWERWAVE SYSTEMS TO BE INSTALLED IN SASKATCHEWAN OPERATIONS**

EDMONTON, Alta Aug 30, 2010 – Wavefront Technology Solutions Inc. (“Wavefront” or the “Company”; TSX-V: WEE), a leader in technology development and implementation for improved oil recovery and optimized groundwater remediation, is pleased to announce that a Canadian-based oil and gas producer having a diversified global portfolio will be installing eight Powerwave systems at two separate production locations in Saskatchewan.

“This new contract represents another significant opportunity for Wavefront and we are very pleased to be working with this client, who operates on three continents,” said Wavefront President and CEO Brett Davidson. “One of Wavefront’s strengths is the multiple Powerwave tool designs, which allow it to carry out operations across a wide and varied range of reservoir conditions. At the Saskatchewan locations a combination of electrically and mechanically operated tools will be deployed to unlock oil trapped in the nooks and crannies of the reservoir.”
