## **WAVEFRONT ANNOUNCES SUCCESSFUL POWERWAVE WELL STIMULATIONS IN KAZAKHSTAN**

EDMONTON, Alta., October 4, 2021, Wavefront Technology Solutions Inc. (Wavefront or the Company, TSX-V: WEE; OTCQB: WFTSF), a technology service provider offering the oil and gas industry revolutionary technology that optimizes oil and gas recovery while minimizing the environmental impact of operations wishes to announce that the Company's distributor in Kazakhstan successfully completed two Powerwave-related well stimulations with its major client.

The stimulation procedures for these challenging wells were designed by Wavefront's engineering staff utilizing the Company's proprietary, dynamic well stimulation package. The proprietary package models fluid penetration associated with Powerwave at discrete points in the well completion and provides a precise execution program for Wavefront's distributors or end users to follow. The strength of the physics behind the stimulation package combined with the Company's leading-edge tools distinguishes Powerwave in the marketplace over all other stimulation approaches.

"We are very pleased with the technical conclusions of this initial Powerwave stimulation work in Kazakhstan," said Wavefront President and CEO Brett Davidson. "With the recent addition of new clients and a new global distribution agreement with a major service provider Wavefront continues to build positive momentum and we look forward to announcing further new clients and new projects in the near term."

ON BEHALF OF THE BOARD OF DIRECTORS

***WAVEFRONT TECHNOLOGY SOLUTIONS INC.***

*"D. Brad Paterson" (signed)*

D. Brad Paterson, CFO & Director

**About Wavefront:**
